Objective

To obtain a challenging software developer position in a dynamic and cutting-edge organization where I will utilize my unique and technical skills to create and maintain visually appealing, accessible, and responsive software.

Skills & Abilities

Proficient in Object-Oriented, Front-End, and Back-End programming, with experience developing a range of safe and accessible software, applications, and websites using modern development tools and frameworks.

Education

UNIVERSITY OF NORTH FLORIDA

Jacksonville, FL | BS in Computer Science | 2023

- Earned a 3.5 GPA.
- Completed relevant coursework in software engineering, computational theory, database management, and web development.

FLORIDA STATE COLLEGE AT JACKSONVILLE

Jacksonville, FL | Associate in Arts (AA) | 2019

- Earned a 3.4 GPA
- Completed complementary coursework in Microcomputer Applications for Business and Economics, Elementary Statistics, Introduction to Speech Communications

Teamwork

Exceptional cooperation skills, in both Scrum and Agile settings, enable me to collaborate with team(s) and clients to deliver unique and high-quality solutions.

Projects

Relevant project works, including a 2d Adventure Game (coded entirely with base Java classes), a responsive portfolio (made with HTML, JavaScript, and CSS) can be found on my GitHub and website, listed above.

Programming Languages

Language	Level		Tool/Language	Level
Java	★★★★★ Advanced		*Microsoft Office Suite*	★★★★★ Advanced
HTML	★★★★★ Advanced		*JavaScript*	★★★★★ Intermediate
CSS	★★★★★ Intermediate		*Python*	★★★★★ Novice
